Volume 27

Feature Articles

Number 2

Fossil araneomorph spiders from the Triassic of South Africa and Virginia by <b>P.A. Selden, J.M. Anderson, H.M. Anderson &amp; N.C. Fraser</b> .....	401
New species and cladistic reanalysis of the spider genus <i>Monapia</i> (Araneae, Anyphaenidae, Amaurobioidinae) by <b>Martín J. Ramírez</b> .....	415
The females of <i>Anelosimus dubiosus</i> and <i>Anelosimus jabaquara</i> (Araneae, Theridiidae) by <b>M. de Oliveira Gonzaga &amp; A.J. dos Santos</b> .....	432
Revision of the <i>groenlandica</i> subgroup of the genus <i>Pardosa</i> (Araneae, Lycosidae) by <b>C.D. Dondale</b> .....	435
A revision of Central African <i>Trabea</i> (Araneae, Lycosidae) with the description of two new species from Malawi and a redescription of <i>T. purcelli</i> by <b>M. Alderweireldt</b> .....	449
The identity of <i>Pachyloides tucumanus</i> n. comb. (ex <i>Bosqia</i> ), with a proposal of generic synonymy and the new name <i>Pachyloides yungarum</i> (Opiliones, Gonyleptidae, Pachylinae) by <b>L.E. Acosta</b> ...	458
New synonyms in the genera <i>Discocyrtus</i> and <i>Pachyloides</i> (Opiliones, Gonyleptidae, Pachylinae) by <b>L.E. Acosta</b> .....	465
Thermal tolerances and preferences of the crab spiders <i>Misumenops asperatus</i> and <i>Misumenoides formosipes</i> (Araneae, Thomisidae) by <b>V.R. Schmalhofer</b> .....	470
Paraphyly of the <i>Enoplognatha ovata</i> group (Araneae, Theridiidae) based on DNA sequences by <b>A.-M. Tan, R.G. Gillespie &amp; G.S. Oxford</b> .....	481
Cheap transport for fishing spiders (Araneae, Pisauridae): The physics of sailing on the water surface by <b>R.B. Suter</b> .....	489
Notes on the social structure, life cycle, and behavior of <i>Anelosimus rupununi</i> by <b>L. Avilés &amp; P. Salazar</b> .....	497
Movement of the male brown tarantula, <i>Aphonopelma hentzi</i> (Araneae, Theraphosidae), using radio telemetry by <b>M.E. Janowski-Bell &amp; N.V. Horner</b> .....	503
Phenology and life history of the desert spider, <i>Diguetia mojavea</i> (Araneae, Diguetidae) by <b>A.M. Boulton &amp; G.A. Polis</b> .....	513
Host specificity and distribution of the kleptobiotic spider <i>Argyrodes antipodianus</i> (Araneae, Theridiidae) on orb webs in Queensland, Australia by <b>P. Grostal &amp; D.E. Walter</b> .....	522
Abundance of spiders and insect predators on grapes in central California by <b>M.J. Costello &amp; K.M. Daane</b> .....	531
<b>Research Notes</b>	
Unusual phenotype suggests role for homeotic genes in arachnid development by <b>J.E. Garb</b> .....	539
Nomenclature of the orb-web by <b>S. Zschokke</b> .....	542
On <i>Sofanapis antillanca</i> (Araneae, Anapidae) as a kleptoparasite of austrochiline spiders (Araneae, Austrochilidae) by <b>M.J. Ramírez &amp; N.I. Platnick</b> .....	547
Carbohydrate analysis in spider hemolymph of selected lycosid and araneid spiders (Araneae: Lycosidae and Araneidae) by <b>P.D. Barron, N.V. Horner &amp; R.L. Cate</b> .....	550
