Invited Review
A review of the mechanisms and functional roles of male silk use in spider courtship and mating
by Catherine E. Scott, Alissa G. Anderson & Maydianne C.B. Andrade .......................... 173

Featured Articles
Sexual dimorphism in the spinning apparatus of Allocosa senex (Araneae: Lycosidae), a wolf spider with a
reversal in typical sex roles
by Andrea Albín, Anita Aisenberg, Miguel Simó & Petr Dolejš .................. 207

Morphology of setae on the coxae and trochanters of theraphosine spiders (Mygalomorphae: Theraphosidae)
by Arthur Galleti Lima & José Paulo Leite Guadanucci ........................................ 214

Response of the eastern sand scorpion, Paruroctonus stahlini, to air movement from a moth analog
by Kathryn Ashford, Raven Blankenship, Wyatt Carpenter, Isaac Wheeler & Douglas Gaffin .......... 226

From storage to delivery: sperm volume and number of spermatozoa inside storage organs and euctulates in males
of Timogetes elegans (Scorpiones: Bothriuridae)
by David Eduardo Vrech, Paola Andrea Oliveros, Camilo Iván Mattoni & Alfredo Vicente Peretti ..................... 231

A new, relictual Antillolodes from Mexican caves: first mainland record of the genus and revised placement of the
island Minisella didactinea (Araneae: Filistatidae)
by Ivan L. F. Magalhaes ...................................................................................................................... 240

Systematics of the spiny trapdoor spider genus Bungulla (Mygalomorphae: Idiopidae): revealing a remarkable
radiation of mygalomorph spiders from the Western Australian arid zone
by Michael G. Rix, Robert J. Raven, Andrew B. Austin, Steven J. B. Cooper & Mark S. Harvey .......... 249

Two new species of cave-adapted pseudoscorpions (Pseudoscorpiones: Neobisiidae, Chthoniidae) from Guangxi,
China
by Zhizhong Gao, J. Judson Wynne & Feng Zhang ......................................................... 345

Clarification of three species of Discocyrtus Holmberg, 1878 with convoluted taxonomic histories (Opiliones:
Lamantii: Gonylophidae: Pachyiinae)
by Adriano B. Kury, Ricardo Pinto-da-Rocha, Jürgen Gruber & Rafael C. Carvalho. .................. 355

Short Communications
Web asymmetry in the tetragnathid orb spider Metellina mengel (Blackwell, 1869) is determined by web
inclination and web size
by Nicholas Tew & Thomas Hesselberg ................................................................. 370

A method for accurately estimating social spider numbers without colony damage
by Bharat Parthasarathy & Hema Somanathan .................................................. 373

Assessing spider diversity in grasslands – does pitfall trap color matter?
by Sascha Buchholz & Maria Möller ........................................................................... 376

Reproductive strategy of a cave-living arachnid with indeterminate growth (Phrynus longipes; Amblypygi: Phrynidae)
by Kenneth James Chapin & Emily Katherine Chen ........................................ 380

Capturing the elusive camel spider (Arachnida: Solifugae): effective methods for attracting and capturing solifugids
by Paula E. Cushing & Edmund González-Santillán .................................................. 384

Instructions to Authors ........................................................................................................ 388
The Journal of Arachnology (ISSN 0161-8202), a publication devoted to the study of Arachnida, is published three times each year by The American Arachnological Society. Memberships (yearly): Membership is open to all those interested in Arachnida. A subscription to the Journal of Arachnology and annual meeting notices are included with membership in the Society: Regular, $55; Students, $30; Institutional, $125. Inquiries should be directed to the Membership Secretary (see below). Back Issues: James Carrel, 209 Tucker Hall, Missouri University, Columbia, Missouri 65211-7400 USA. Telephone: (573) 882-3037. Undelivered Issues: Allen Press, Inc., 810 E. 10th Street, P.O. Box 368, Lawrence, Kansas 66044 USA.
